

TVS ACOUSTICS
NOISE & VIBRATION CONTROL

CASE STUDY

TVS ABSorb Classroom Kingsgate Primary School

PROJECT INFORMATION

Project/Objective

TVS Acoustics was tasked with providing an acoustic solution for a primary school within the classrooms and corridors due to high noise levels. Furthermore, the TVS ABSorb Classroom properties allow it to function as a pin-board for all classroom displays, whilst providing an aesthetically pleasing design.

TVS Acoustics supported the school throughout the project and completed the works out of hours to ensure school operations were not affected. All classrooms were left clean and tidy for the teachers each morning.

All works were completed to the delight of the school Business Manager Shelley Dunbar who went on to say "TVS were really easy to work with, we don't always get that with contractors. They were being really accommodating throughout the whole process, which makes a huge difference."

Product

290m² TVS ABSorb Classroom

Special Features

- Excellent Acoustic Performance
- Quick & Easy Installation
- No Maintenance
- Pinboard Surface for Education
- Provides a Unique Look

Completed

2018
