Ideal Standard

When design meets performance

Everything we create at Ideal Standard is built on the fundamental belief that design and performance are inseparable in the quest for truly exceptional bathrooms and washrooms. This philosophy drives us to meticulously craft products that not only attract the eye but also exceed expectations in terms of functionality and reliability.

Our Atelier Collections embody the perfect fusion of these principles. These stunning ranges exude timeless elegance, drawing from Ideal Standard's rich heritage while always looking forward. From the neo-classical styling of Calla to the mid-20th century retro of Tipo-Z to the sophisticated simplicity of Solos, each collection seamlessly blends legacy with modernity to create something truly special.

Moreover, our commitment to excellence extends beyond aesthetics and functionality; sustainability is at the heart of everything we do. Every new range is conceived within a framework that ensures sustainability is considered in everything from raw materials to the operation of the installed product.

Our mission is to enhance the lives of our customers and partners. With a vast array of bathroom solutions across a complete range of product categories, Ideal Standard is your one-stop source for everything you need, whether for homes, hospitality, offices, or any other space. This commitment is encapsulated in our Singular™ philosophy, where products from our entire portfolio work beautifully together in terms of appearance and compatibility. Every aspect, from inspiration to installation, is meticulously considered.

We are incredibly proud of our Atelier Collections, and we hope you find them as inspiring as we do.

Jan Peter Tewes

VP Sales at Ideal Standard International

Crafting timeless elegance

Design is an ever-evolving process, often in ways that are not immediately tangible. However, this doesn't necessitate reinventing your style or identity with every new trend. For me, it means crafting something that seamlessly integrates aesthetics, performance, heritage, and modernity to create timeless products.

Nothing embodies this fusion of influences more than the Atelier Collections by Ideal Standard. This is an exquisite family of product ranges, where elegance meets functionality, and where every curve, every line, is a testament to timeless design.

These bathroom ranges are not merely functional things to own; they are expressive pieces, conceived to elevate our daily rituals into moments of indulgence and enjoyment which help to improve our lives. Ideal Standard's rich history gives me, as a designer, so much to draw upon and to inspire, balancing this appreciation of legacy with a desire to always look forward and push ourselves towards new possibilities.

Behind the seamless aesthetics lies a dedication to performance. This could be in the innovative materials or the advanced technologies; every component is there to ensure a lifetime of superior functionality and durability.

When contemplating the ways in which bathrooms can enhance our daily lives, I think of La Dolce Vita®. In Italy, it signifies an appreciation for life's simple pleasures; the everyday moments. Our range of the same name embodies this sentiment, crafting a tactile, expressive space whose sensuality ignites inspiration and dreams, fostering the birth of new ideas.

In designing the La Dolce Vita® products, it was imperative to encapsulate this essence and infuse it into every facet of the collection. I invite you to delve into our Atelier Collections and experience first-hand how a beautifully crafted bathroom can evoke a new found appreciation for life's smallest joys.

Roberto Palomba
Chief Design Officer at Ideal Standard International

Our awards

Together for a better future

The Villeroy & Boch Group has been awarded the EcoVadis Platinum Medal, the highest distinction in the globally recognized EcoVadis sustainability rating.

EcoVadis evaluates companies across 21 criteria in four core areas: Environment, Labour & Human Rights, Ethics, and Sustainable Procurement. The assessment is based on globally recognised standards and provides companies with a data-driven analysis of their sustainability performance.

With an overall score of 85 out of 100, the Group ranks among the top 1% of more than 130,000 companies assessed worldwide. Particularly high scores were achieved in Environmental Responsibility and Labour & Human Rights.

Initiatives include energy efficiency measures in production, investments in workplace safety, leadership development, and social audits to ensure human rights and ethical standards in the supply chain.

In 2025, our sustainability efforts were recognised with an EcoVadis Platinum Medal.

Sustainable Value Chains

Redefining the manufacturing and supply chain to drive renewable and sustainable processes and transportation.

Sustainable and Durable Materials

Reimagining the use of materials, focusing on increasing the use of recycled materials, efficiency, durability and recyclability, and reducing waste.

Water and Energy Efficiency

Optimising and reducing the use of water, especially hot water, and therefore also energy, during the use of our products.

Elevated Hygiene

Promoting health and wellbeing by maximising hygiene and sanitation performance above standards, not only for hospitals and care homes or in public washrooms, but more and more in the residential sector.

**DIAMATEC®
CERAMIC MATERIAL**

A circular economy involves minimising material usage from the very beginning. Diamatec®, made with a distinctive blend of alumina and chamotte, achieves exceptional strength and durability with less material. To make an equally durable product, we would have to use 25% more fine fire clay material. However, the robust nature of Diamatec® ceramic material means we can craft thinner basins using less material.

AQUABLADE®

Superior, splash-free flushing, even at low water volumes. For spaces where hygiene is paramount, and for washrooms where first impressions are essential, AquaBlade® is the ultimate design solution.

Ensures 95% of the surface is cleaned every time. Proven to be up to 25% quieter than equivalent models. More effective and efficient use of water compared to standard flushes.

**PVD
COATINGS**

Physical Vapour Deposition (PVD) technology allows us to apply fine layers of metal, atom by atom. Used for our coloured fittings, this allows us to control the

composition, hardness and durability of the surface compounds, resulting in vibrant shades that are still free from scratches and abrasion marks even after 10,000 uses.

**DIAMATEC®
BRASS**

Diamatec® Brass is our most sustainable brassware. Making up more than 90% of our fittings, it uses less raw materials and creates more durable taps with

optimal wall thickness, which is only possible because of the use of a much stronger, Dezincification Resistant (DZR) brass alloy.

FIRMAFLOW®

We pioneered the ceramic disc cartridge in 1969. This innovation redefined the way people used bathrooms and made it possible to create the single lever tap. Today, FirmaFlow® sets the standard for quality with

its innovative engineering and exceptional durability, comfort and control. Designed to deliver smooth operation for over 500,000 use cycles - more than six times the EU norm (EN817).

IPALYSS — COLOUR PALETTE

NINE NEW CERAMIC COLOURS – INCLUDING BLACK MATT, SLATE GREY, NUDE, SAGE AND POMEGRANATE – JOIN WHITE GLOSS AND WHITE SILK TO OFFER A COMPLETE PALETTE THAT BRINGS A SENSE OF EMOTION TO BATHROOM INTERIORS. SOME COLOURS HARK BACK TO HISTORICAL IDEAL STANDARD DESIGNS BUT WITH A CONTEMPORARY AND ELEGANT FINISH, WHILE OTHERS ARE ENTIRELY NEW AND HAVE BEEN DESIGNED TO COMPLEMENT POPULAR MODERN MATERIALS, SUCH AS MARBLE AND STONE.

White gloss/silk

Black matt

Powder

Slate grey

Pomegranite

Concrete

Sage

Nude

FINISH CHART

The last two digits of the SKU represents the finish of the model. If you would like a model in any other existing finishes than white, please refer to the chart below to see the matching colour codes.

FINISH CHART

The last two digits of the SKU represents the finish model.
Please add colour reference to code when ordering.

		MAT WHITE	MATT ANTHRACITE	MAT SUNSET	SMOKED OAK	DARK WALNUT	LIGHT OAK	BLACK DESIRE MARBLE*	CALACATTA MARBLE*	GREY STONE*
CONCA	RANGE	Y1	Y2	Y3	Y4	Y5	Y7	DG	DH	DI
	UNITS									
	PORCELAIN STONEWARE WORKTOPS									

* Porcelain stoneware worktop finishes only.

Y1, Y2 and Y3 are coloured lacquer.
Y4, Y5 and Y6 are wood veneer.

For basin units sold with worktops, the worktop finish matches the unit finish.

For basin units sold without worktop, select among one of the 3 worktop finishes available:
Black Desire Marble, Calacatta Marble or Grey Stone.

GUARANTEE Our confidence in the quality and reliability of Ideal Standard products enables us to guarantee many of them for a lifetime. Our guarantee is offered on all products that have been used in the manner for which they were intended, and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water bye-laws. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation. All ceramic products are guaranteed for a lifetime. Acrylic baths are guaranteed for 25 years from date of purchase. Bath panels, furniture, mixers, taps and showers, WC suite seats and cistern fittings are guaranteed for five years from date of purchase. Parts (including push button flush valves) are guaranteed for five years and will be replaced if found to be faulty. Cistern diaphragms, seals and shower seals are not included. The guarantee is transferable 'it applies to the product not the purchaser' provided guarantee registration details are passed on to the new owner.

For full guarantee details including terms and conditions please visit www.idealstandard.co.uk

Ideal Standard pursue a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice. Colour reproduction is as accurate as possible within the limitations of the printing process. While great care has been taken to ensure accuracy of all prices, product codes, descriptions and dimensions, Ideal Standard reserves the right to correct errors or misprints.

Our rings are an enduring symbol of Ideal Standard Group.

They represent the partnerships that happen during the process of creation; the collaborations between ourselves and architects, our engineers and customers, our craftspeople and the world's leading industrial designers of today.

They embody our balance of form and function, the elegance of our products and the timeless quality of our design.

Above all, they symbolise our overarching promise:
Together for Better.
