CASE STUDIES ____ 38

WHO WE ARE

AMV Playgrounds is an engineering company that has been trading for nearly 40 years, focusing primarily on outdoor sport, fitness and active play within education. We are also proud to be part of Bailey Street Furniture Group.

Bailey Street Furniture Group encompasses five of the external works industry's best-known brands which are: Bailey Streetscene, Artform Urban Furniture, Street Furniture Direct, Cyclepods and AMV Playgrounds.

Our vision is simple – to build a better world by creating stimulating and functional outdoor spaces, that allow us to thrive and enhance our everyday lives.

Create a Campus that Attracts and Inspires

A well-designed sports area isn't just about PE classes. It's a symbol of your school's commitment to student health and excellence. When prospective families tour your school, they're looking for more than just strong academic programs. They want to see a vibrant, dynamic environment where students are encouraged to develop their skills in every area, including sports. The same is true of visually appealing external social spaces and facilities to support cycling, which all make your campus more attractive to students and parents alike.

Durable. Safe. Built for the Future.

We pride ourselves on creating outdoor solutions that are built to last. Our products are designed with durability and safety at the forefront, ensuring that your students can enjoy years of active use. Whether you're looking to enhance your football pitch, upgrade your green travel plan, or create an outdoor dining area, we have the expertise and innovative materials to make it happen.

SPORT

A low-angle, upward-looking photograph of two basketball players in mid-air. The player on the left is wearing a yellow jersey and blue shorts, reaching up with their right arm. The player on the right is wearing a white jersey and dark shorts, also reaching up. A basketball is visible between their hands. In the background, a basketball hoop and net are partially visible against a clear, bright blue sky. The image is used as a background for the text on the left side of the page.

Invest in Health, Reap the Benefits of Success

Research shows that regular outdoor exercise isn't just vital for physical health—it enhances concentration, improves mood, and leads to higher academic achievement. By providing exceptional sports facilities, you're not just investing in your students' well-being, but also directly contributing to better classroom performance and school outcomes.

We offer a selection of high-quality engineered apparatus catering to all ages and abilities. From multisport goals to outdoor table tennis tables, each item is designed for durability and optimal performance.

HEAVY DUTY STEEL GOALS

AMV are widely recognised as the leading supplier of high quality outdoor multi-sport goal units within education.

All our heavy-duty steel goals have a 25-year warranty against rust, corrosion and structural failure.

KEY FEATURES

- Vandal-resistant
- Maintenance free
- Optional basketball or netball hoop
- Targets & Wickets for added play value
- Choice of recessed, open & flat goal styles
- Available in a wide range of colours

Goal Recess 113

L: 3.85m x H: 1m x D: 0.4m

Goal Recess 229

L: 3.85m x H: 2.1m x D: 0.75m x Crossbar H: 2m

Goal Recess 185

L: 3.85m x H: 3m x D: 0.75 recess x Crossbar H: 2m
Recessed goal with basketball backboard and ring

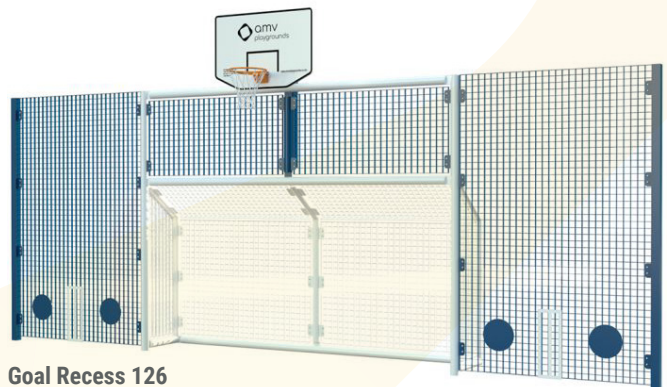

Goal Recess 23

L: 3.85m x H: 3m x Crossbar H: 2m
Open goal with basketball backboard and ring

Goal Recess 59

L: 3.85m x H: 3m x D: 1m x Crossbar H: 2m
open goal with basketball backboard and ring

Goal Recess 126

D: 0.75 recess x L: 7.85m x H: 3m x Crossbar H: 2m
Recessed goal with basketball backboard and ring and 3m side panel.

STAINLESS STEEL GOALS

Exclusively available from AMV Playgrounds, our stainless-steel goals range offer a touch of class, fitting into any school environment.

This attractive and unique goals range uses and reuses durable stainless steel, a material that does not harm the environment, is weatherproof, low-maintenance (stainless steel does not rust, discolour, rot or split) and is discouraging to vandals as it is almost impossible to destroy.

KEY FEATURES

- Maintenance free
- Sustainable (100% recyclable)
- Can be combined with Citybox or Backstop range
- TÜV certified

Goal Wall Target - L: 2.95m x D: 0.1m x H: 1.5m

Young players can hone their shooting skills by frequently practising with this freestanding goal where the balls must be shot through the holes. Can be installed independently in any location or in conjunction with other items from our goals range.

Midi Goal - L: 1.55m x D: 0.52m x H: 0.81m

This fun size mini goal design doesn't take up much space and can be used alone or as a pair. The goal is available in various sizes.

Bar Goal - L: 3.14m x D: 0.74m x H: 2.04m

With its strong frame, the closely spaced vertical bars design prevents climbing on the goal.

Combi goal - L: 3.09m x D: 2.16 x H: 3.28m

The combi goal has a stainless steel basketball backboard and can also be used as both a football and hockey goal

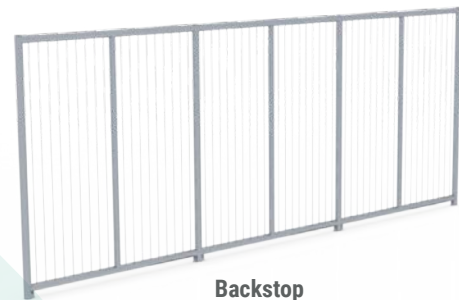

STAINLESS STEEL “BACKSTOP”

Again, exclusively available in the UK from AMV, the Backstop range consists of transparent cable fencing with special, sound-absorbing cables.

The low-noise backstop fits into any environment and keeps the balls on the sports field or playground. Backstops are modular and can be extended with an integrated goal within the fence line or standalone separate goal set in front.

KEY FEATURES

- Fully customisable
- Low-noise thanks to sound-absorbing cables.
- An ideal way to zone off playgrounds and contain ball play
- Transparent structure, keeping sight lines open for safeguarding
- TÜV certified

Backstop
L: 7.5m x D: 0.09m x H: 3m

Backstop with Goal
L: 13.25m x D: 0.09m x H: 3m

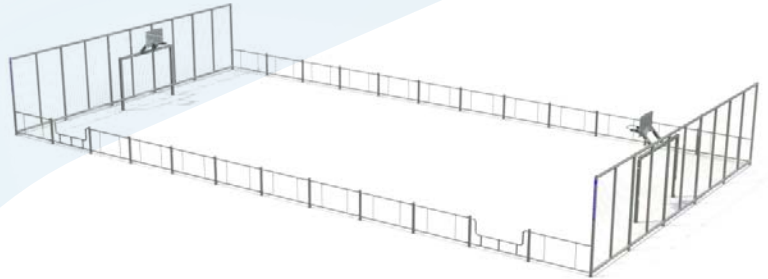

CITYBOX

CityBox is a high quality, fully customisable stainless steel sports cage system that is exclusive to AMV in the UK.

If you want more than the ubiquitous green chain-link fencing seen everywhere else then look no further – the possibilities are endless!

KEY FEATURES

- Fully customisable
- Low-noise thanks to sound-absorbing cables
- Virtually maintenance free
- Transparent structure, keeping sight lines open for safeguarding
- Vandal-resistant, because no surfaces for graffiti, cutting or scratching
- Resilient cables that don't break
- Can be supplied with access points suitable for wheelchair users
- TÜV certified

LOOP PLAYFIELD

Loop Playfield is a modular system that allows the creation of multifunctional (and moveable) spaces for ball games and other activities, simultaneously acting as seating for spectators and socialising.

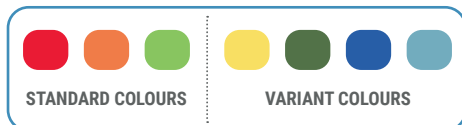

Our Loop Corner and Loop Line products (**see LOOP range elsewhere in brochure**) combine to offer the possibility of creating temporary or permanent sports fields in schoolyards or other areas.

These two elements can also be used to define enclosures or demarcate areas in a practical manner

Material: Rotation moulded polyethylene, 8 mm thick

Dimensions: H: 400mm. Length and width are determined by the number of modules

Fixation: For ground and surface fixation or fill with water/sand

MUGAs (MULTI USE GAMES AREAS)

AMV offer a MUGA design which is by far the most durable and robust within the UK market. It's all about how they're engineered.

AMV heavy duty posts and steel grill fence panels have a 25-year guarantee against rust and corrosion. The mesh fence panels are continuous with flat vertical bars, which not only creates an anti-climb surface, but also minimises unsightly areas where dust and other deposits can settle.

Noise disturbance is also cleverly minimised with AMVs proprietary clamping design which ensures noise from vibration is reduced, without the need for perishable rubber buffers.

AMV build all our MUGA pitches bespoke to the installation area, allowing for uneven surface levels. This removes the need to adopt an unsightly stepped design for fence panels, as seen with other inferior products, keeping the end result aesthetically pleasing.

STEEL TENNIS NETS

Save time and money with another exclusive AMV outdoor sports innovation...

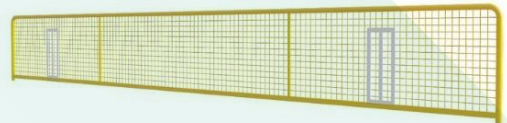

The authentic look of an AMV vandal-resistant Steel Tennis Nets delivers a minimum maintenance cost-effective solution, which avoids constantly replacing damaged nets, or the need to bring traditional nets in and out on a regular basis. Galvanised and powder-coated finish in a range of colours, to ensure an attractive rust-free finish for many years to come.

Our heavy-duty permanent steel tennis nets are available with cricket wickets for added play value and come in two sizes.

Full Size Tennis Net - (L: 12.8m x H: 1.07m) Based on the exact dimensions of the official Wimbledon tennis nets, including the dip in the centre, for an authentic match play experience.

Mini Tennis Net - (L: 6m x H 0.8m) ideal for short tennis, paddle ball and informal PE tennis practice. Our mini tennis nets are also used as an effective multi-functional barrier at the edge of playground sports pitches, to help with ball containment.

OUTDOOR TABLE TENNIS TABLES

Developed by AMV in conjunction with the English Table Tennis Association (ETTA) our steel construction table tennis tables are genuine "fit for purpose" outdoor tables that are used regularly in public parks, on account of their robust, anti-vandal build quality.

Available in a single colour or quarter top finish, and wide variety of colour options at no extra cost, our table tennis tables are very popular with secondary schools and higher education campuses.

KEY FEATURES

- Rounded corners for safety
- Maintenance free
- Vandal resistant
- Steel construction does not chip or degrade over time, unlike concrete alternatives

Dimensions: (L 2.74m x W 1.5m x H 0.75m)

STEEL BASKETBALL NETBALL POSTS

Our root-fixed steel basketball and netball post range are designed to be vandal resistant and maintenance-free

KEY FEATURES

- 25-year warranty, rust and structural failure
- Galvanised and powder coated finish
- Available in a wide range of colours at no additional cost

Single Basketball Post

This regulation height basketball post with hoop set at 3.05m is ideal for secondary schools and colleges.

Triple Basketball Post

Great for outdoor P.E lessons, target practice and active play during breaktimes

Wall Mounted Basketball

A wall mounted basketball hoop and board, is ideal for target practise and encouraging activity during school break times.

Single Netball Post

A netball post, is ideal not only for target practise but also to encourage activity during school break times.

Triple Netball Post

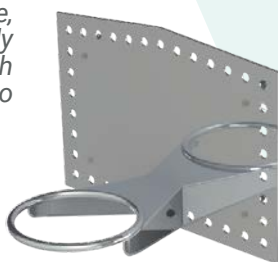

The netball options combine functionality and vandal resistant strength with creative input from our expert design team, to ensure maximum usage from a highly affordable piece of playground equipment.

STAINLESS STEEL BASKETBALL POSTS

For a high-quality look and finish, our exclusive stainless-steel range of basketball apparatus stands out from the crowd.

Wall Mounted Stainless Steel Backboard & Hoop A great way to utilise space, without ground installation. Everybody can shoot hoops or practice dunks with this basketball board which is attached to the wall at a ring height of 2.80m.

Click & Play Basketball Pole (Training model)

With a removable in ground mechanism, the "Click & Play" system makes it quick to switch play functions, allowing your space to be flexible and multi-purpose, according to varying needs. (Also available as a permanent in ground fixture)

Basketball Pole (Competition Standard)

With dimensions identical to those of official basketball poles these can safely be used for competitive adult matches. Equally, users can just have fun with less formal play or getting in some practice shots in! (Hoop height 3.05m). TÜV certified.

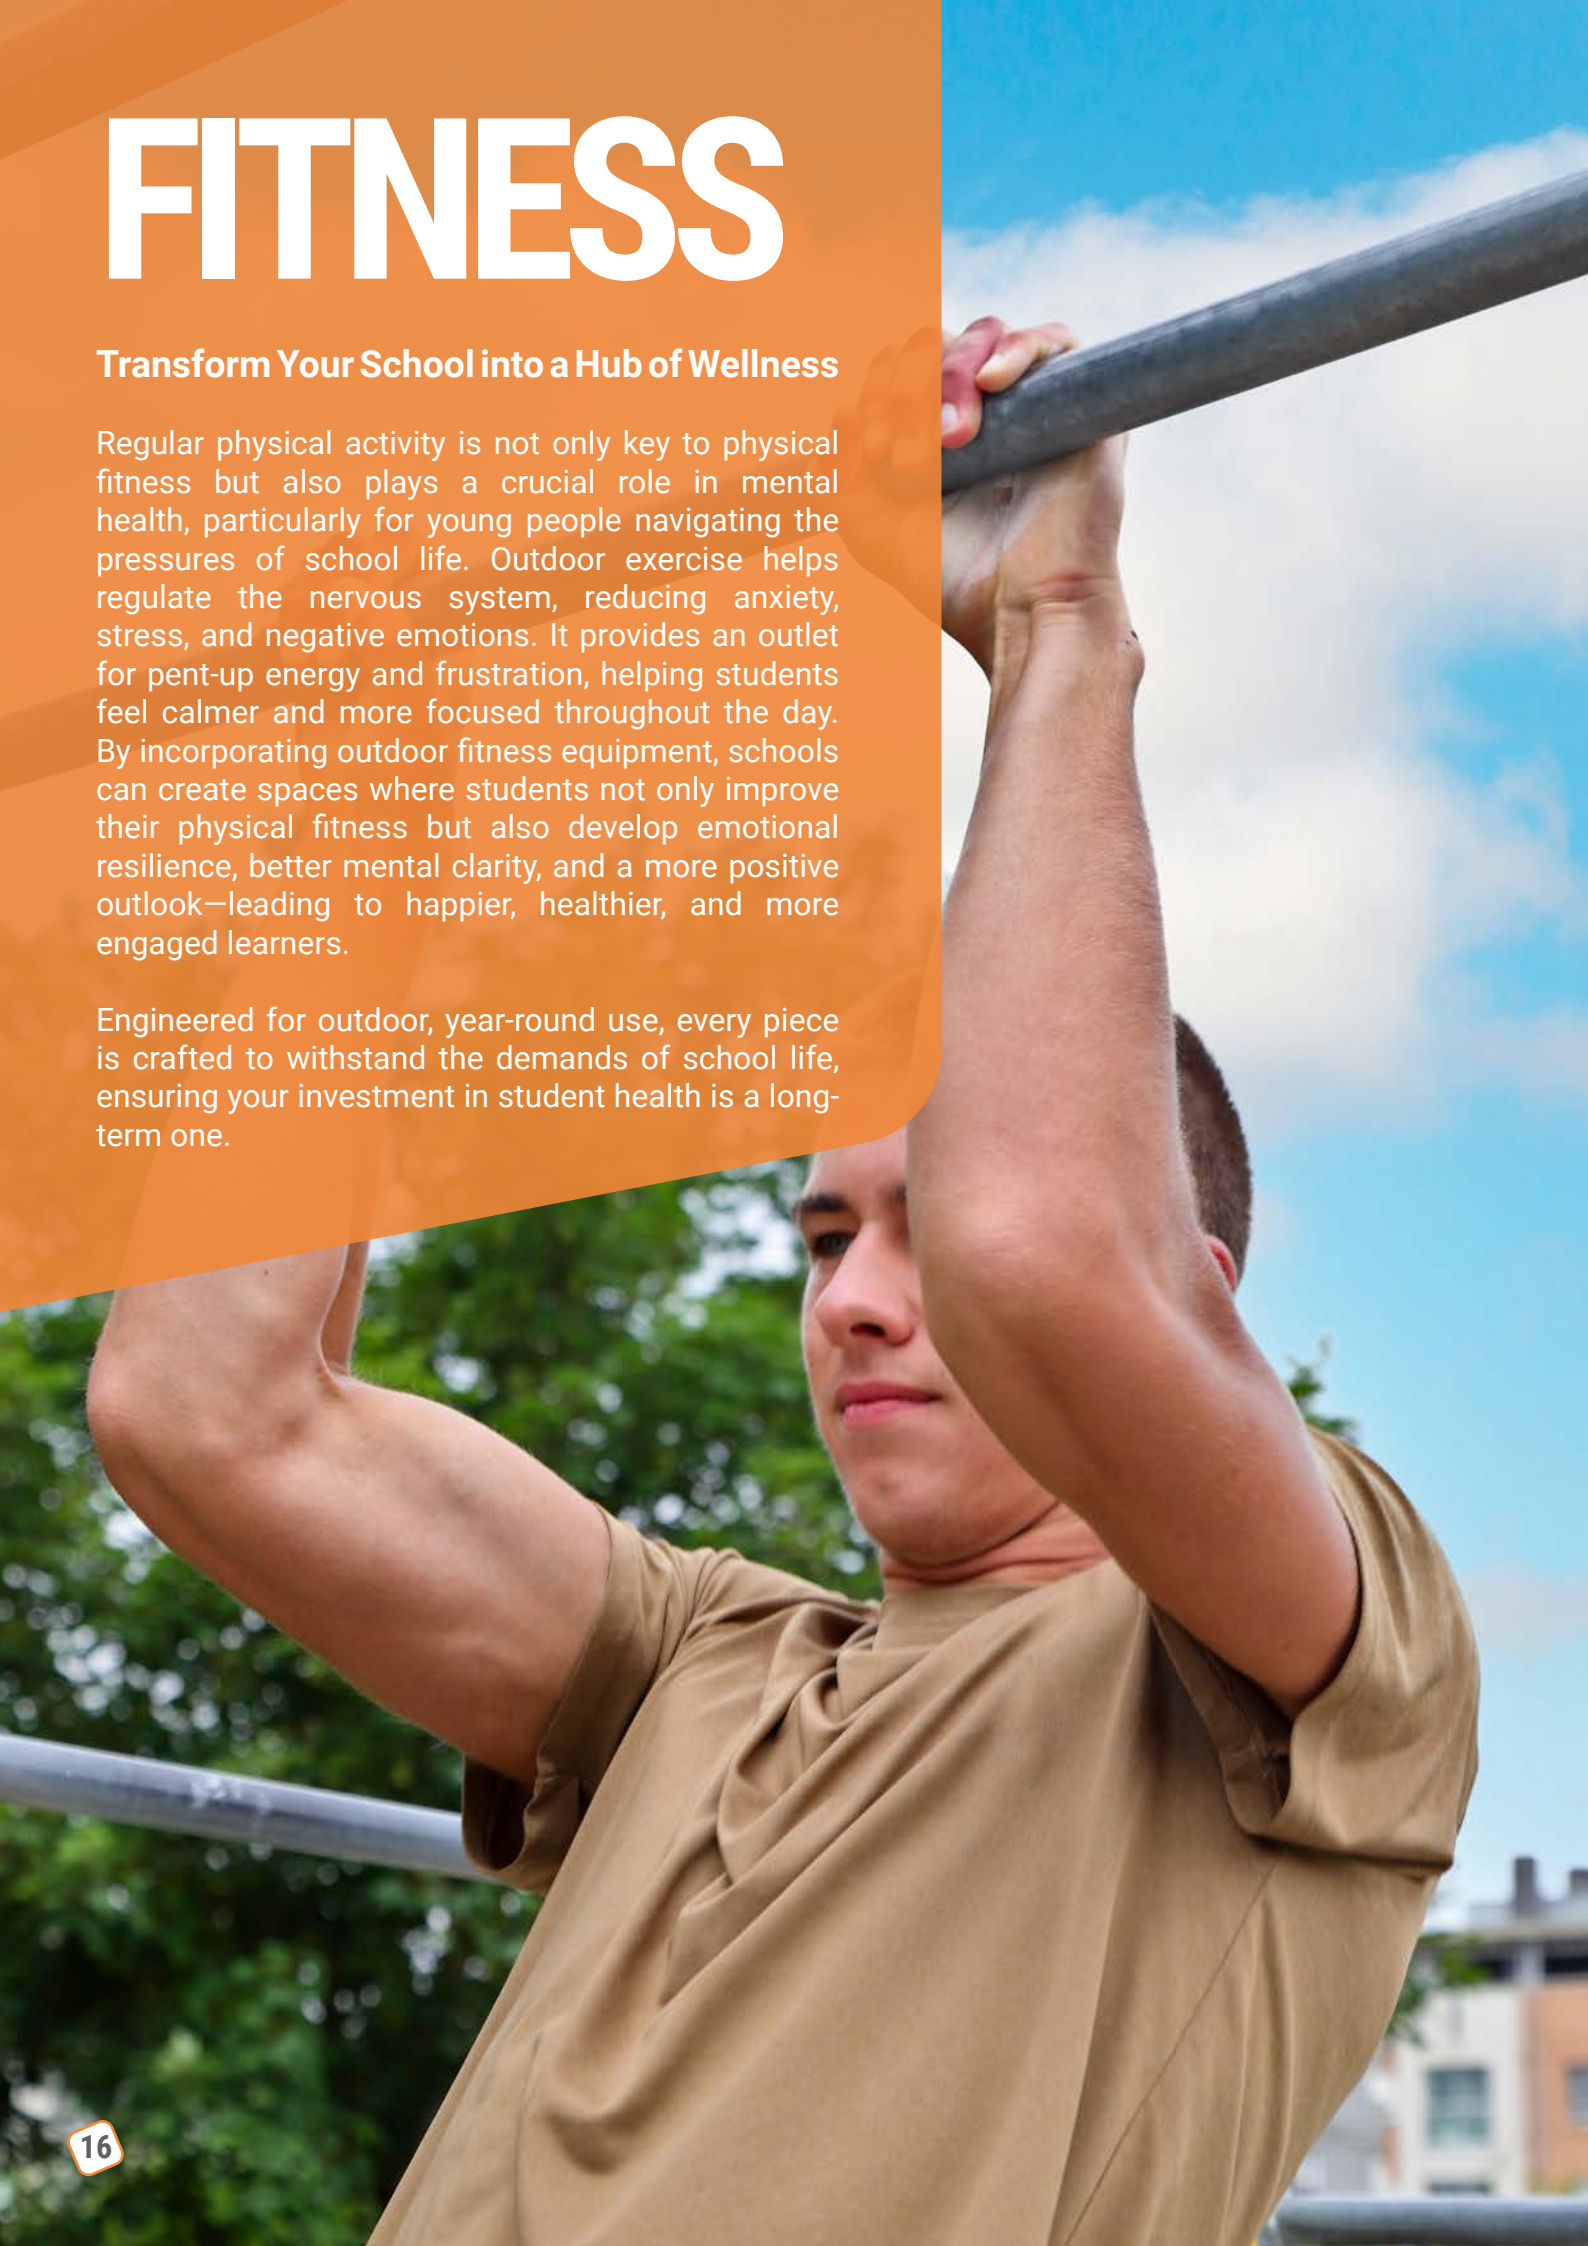

FITNESS

Transform Your School into a Hub of Wellness

Regular physical activity is not only key to physical fitness but also plays a crucial role in mental health, particularly for young people navigating the pressures of school life. Outdoor exercise helps regulate the nervous system, reducing anxiety, stress, and negative emotions. It provides an outlet for pent-up energy and frustration, helping students feel calmer and more focused throughout the day. By incorporating outdoor fitness equipment, schools can create spaces where students not only improve their physical fitness but also develop emotional resilience, better mental clarity, and a more positive outlook—leading to happier, healthier, and more engaged learners.

Engineered for outdoor, year-round use, every piece is crafted to withstand the demands of school life, ensuring your investment in student health is a long-term one.

FITSTATION

An all-in-one outdoor training station, that allows 16 basic exercises on the same unit.

Material: Rotation moulded polyethylene, 10mm thick. Moulded in one piece. UV-resistant, stands up to weather, wear and tear.

Sustainability: Material is suitable for granulation & recycling.

Dimensions: L: 3m x W: 1.5m x H:0.9m

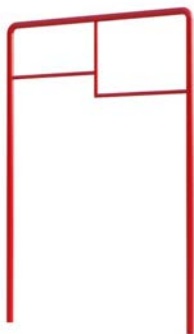

Fixation: Fill with water/sand through integrated plugs or surface/ground fixation. Brackets available separately.

Maintenance: This product withstands most cleaning agents and chemicals and can be cleaned using a high-pressure cleaner. The colour can be revived using vinyl cleaner or similar

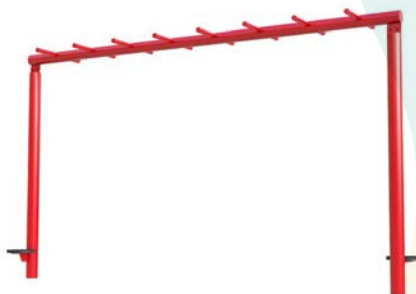

Purchase as a special bundle offer with Chin Up Bars, Monkey Ladder and Parallel Bars in matching colours for the complete fitness workout, in one neat attractive package that won't take up much space!

Steel Fixed Fitness Range

Chin Up Bars – (L: 1.9m x H: 2.7m)

Monkey Ladder – (L: 3.1m x H: 1.9m)

Parallel Bars – (L: 2.5m x H: 1.1m x W: 0.6m)

All items from our steel fixed fitness range are galvanised and powder coated with a 25-year warranty against rust and corrosion.

BARFORZ

BarForz is a modular outdoor fitness system that be expanded and tailored to your exact requirements and available space on site.

Students can enjoy a complete calisthenics workout whenever they want or take part in your very own "boot camp" PE sessions using the BarForz system to train their bodies and practise their tricks.

Available modules: Ab Trainer, Climbing Wall, Incline Push Ups, Dip bar, Dragon Flag, High Dip Bar, Human Flag Stairs, Human Flag T, Jumping Box, Monkey bar, Pull Ups & more.

OUTDOOR GYM

Functional training is one of the best forms of exercise and strength building, improving performance in other sports as well as overall good health.

Our wide range of outdoor gym equipment is not only a great way for students to let off steam, whilst socialising and training together.

It also helps develop multiple muscle groups, building cardio fitness and core strength and all done outside in the fresh air for that extra feel-good factor, enhancing mood and concentration, which in turn improves learning when pupils go back to class.

Individual Exercise Stations

Combination Pull Down & Chest Press

Elliptical Cross Trainer

Outdoor Exercise Bike

Push Up & Dip

Seated Leg Press

Self-Weighted Rower

Triple Pull Up

Twist and Step.

Optional inclusivity attachments will make exercise stations suitable for wheelchair users

BIG RIG

This value packed design combines 7 fixed workout stations and bars for 16 or more users at once.

Suitable for complete beginners up to advanced gym goers, age 11+.

Workout stations include:

Chest Press

Sit Up Bench

Step Up

Leg Lift

Leg Press

Pull Up Bar

Lat Pull Down

Hip Twister

Ninja Rings

Monkey Bars

Pull Up Station

Vertical Ladder

Dorsal Raise

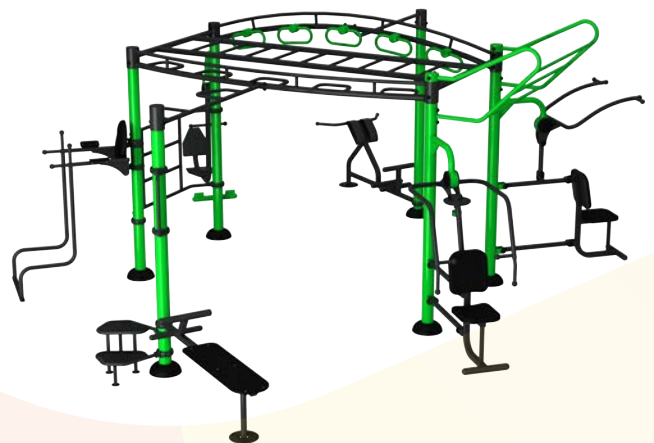

Dimensions - L 7.3m x W 5.7m x H 2.7m

Set within an area of 92m²

KEY FEATURES

- Can be installed on most surfaces (grass, tarmac, concrete)
- Potential to add your own training straps, punch bags and battle ropes

Safety - Our Big Rig is clearly labelled with safety-in-use guidance and suggested workouts. All outdoor gym equipment is produced under ISO9001 for quality management and conforms to UK safety standards EN1176 & EN16630.

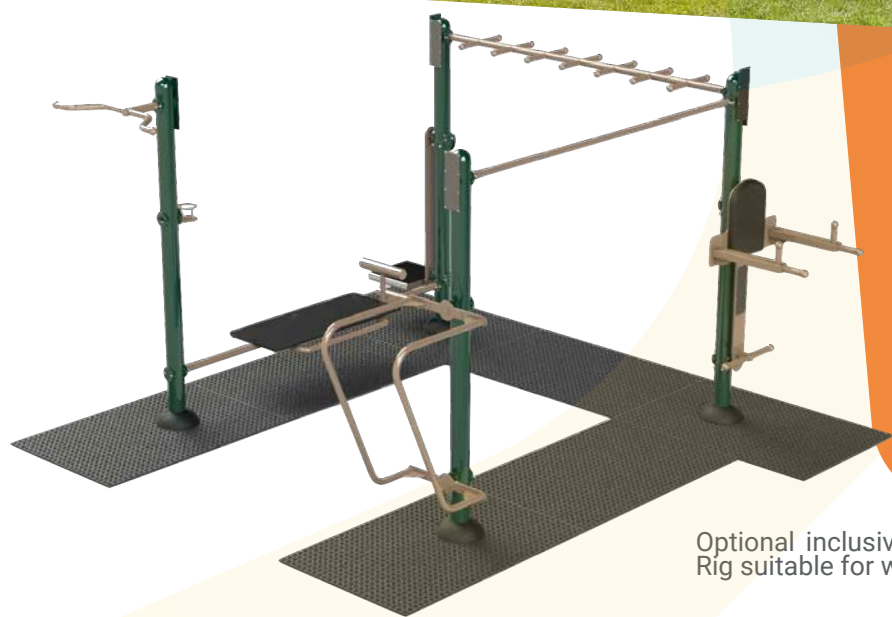

Warranty - Built to last, this product comes with a 25-year guarantee on structural parts, a 5 year guarantee on paint and finishes and a 2 year guarantee on bearings and moving parts.

TRAINING RIG

The Training Rig is the smaller sibling to the Big Rig which still packs a powerful punch when it comes to value for money and functionality. Functional body weight training rig, with 6 workout stations and more than 80 exercise options. Suitable for 8 users at once, providing a challenging, full body, calisthenics workout, for beginners to advanced users.

Workout stations include:

- Pull Up Station*
- Sit Up Bench*
- Step Up*
- Ninja Ladder*
- Leg Lift Station*
- Push Up & Dip Station*
- Wide Pull Up Bar & Anchor Point*

Dimensions - L 3.7m x W 3.33m x H 2.3m
Set within an area of 46m²

Optional inclusivity attachment will make the Training Rig suitable for wheelchair users

CANOPIES & STRUCTURES

Crafted with precision, high-quality components, and an unbeatable 25-year warranty, our canopies not only provide shelter from the elements but also add architectural elegance and enhanced aesthetic appeal to any learning environment.

We are experts in the design, manufacture and installation of a huge variety of bespoke steel structures and shelters. Our canopies are designed & manufactured at our own UK factory, backed up by site specific structural calculations and BSEN 1090 certification, providing you with peace of mind that your staff and students have a safe structure that is built to last.

Whether it's extending the classroom to take learning outside, expanding lunchtime provision with enclosed outdoor dining areas, or providing weather protection for staff and students with covered walkways...with our premium quality bespoke structures, and 40 years of continuous trading history, AMV Playgrounds is a partner you can trust.

COVERED WALKWAYS

Installing a covered walkway offers protection from the elements and enhances accessibility on site, ensuring safe passage between buildings or amenities for students, faculty and visitors regardless of weather conditions.

We provide a versatile selection of freestanding and wall fixed covered walkways in a variety of styles, to create connected walkways with various options for roof cladding, guttering and colours.

ENTRANCE CANOPIES

Investing in an Entrance Canopy at a school, college or university offers numerous benefits. It provides protection ensuring all site visitors can enter and exit the premises comfortably regardless of weather conditions. Additionally, an Entrance Canopy creates a professional and welcoming first impression, serving as a focal point to define the entrance area, and improve wayfinding for visitors.

Entrance Canopies can also serve as a branding opportunity, reflecting your organisations brand colours, displaying school logos or even wording to promote your values and mission.

OUTDOOR DINING CANOPIES

AMV Playground's modern outdoor dining canopies are a popular solution for high schools' and college campuses. Designed to provide additional dining capacity where canteens are stretched, our canopies offer a blend of functionality, durability, and aesthetic appeal, making for a comfortable and enjoyable lunchtime.

AMV Playground's commitment to excellence ensures that our canopies not only meet but exceed expectations for safety, durability and sustainability.

Complete the transformation and elevate your outdoor dining experience by combining with tables & seating from our diverse range of attractive outdoor furniture, shown in this brochure.

OUTDOOR FURNITURE

Designed for Interaction, Built to Last

Outdoor seating areas offer more than a place to sit—they become hubs for discussion, idea-sharing, and informal learning. Whether it's a place for quiet reflection, group debates, or simply enjoying lunch with friends, these spaces encourage students to connect, share opinions, and develop critical social skills.

For today's secondary schools and colleges, creating welcoming, functional outdoor spaces is essential for supporting the holistic development of young adults.

Our furniture is not only durable, but it also reflects the very best in contemporary design—incorporating high-end materials typically found in commercial architectural developments.

PLATEAU RANGE

The robust yet sleek looking PLATEAU series is built for longevity, with product lifetime estimated at up to 50 years! This is a best-in-class outdoor table & seating solution, made from HPL panels (a material originally developed as exterior cladding for buildings). Not surprisingly, they exhibit truly impressive outdoor performance and are a genuine fit and forget solution that will look like new for decades, even in the most demanding of environments.

The supporting frame is galvanised steel, further emphasizing Plateau's robustness, while preserving an elegant and clean look.

With sustainability in mind, our compact laminate (HPL) panels are made from 65% surplus wood from sawmills in Norway, all of which are FSC® and PEFC approved.

Picnic O - Seats 10-12 people. Table with an integrated bench that encircles the entire table.
L: 2.73m x W: 1.83m x H: 0.73m (Seat height: 0.43m)

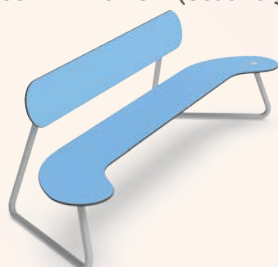

Picnic L - Seats 8-10 people. Designed with two separate L shaped benches which makes access easier for those with walking difficulties
L: 2.73m x W: 1.83m x H: 0.73m (Seat height: 0.43m)

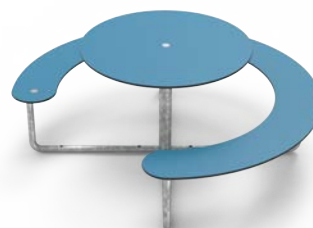

Picnic I - Accommodates 6-8 people including 2 wheelchair users. An inclusive table design with a space at either end for wheelchair access.
L: 2.46m x W: 1.83m x H: 0.73m (Seat height: 0.43m)

Picnic Street - Seats 6 people. Save space, not style with this slim organic design, ideal for young adults socialising in modern, attractive surroundings.
L: 1.25/1.8m x W: 1.45m x H: 0.70m (Seat height: 0.43m)

Bench - Seats 5-6 people. Organic rounded forms create a welcoming change to other more mundane, square bench designs. Side tables can also be attached at ends.
L: 2.75 m x W: 0.87m x H: 0.84m (Seat height: 0.43m)

Picnic Round - Provides a 90-degree building module, within the LOOP range, capable of delineating green areas while also serving as a bench in various forms.
Dia: 1.85 m x H: 0.73m (Seat height: 0.43m)

Available Colours

GOLDEN YELLOW

STEEL BLUE

OLIVE

TERRACOTTA

CORTEN

CAVE

KEY FEATURES

- HPL panels have a smooth, touch-friendly surface for all seasons
- HPL comes in a variety of colour options
- Highly UV and weather-resistant
- Waterproof, termite resistant, and easy to clean
- One of the most bacteria resistant materials available
- No maintenance required other than cleaning
- Suitable for indoor use

LOOP RANGE

The LOOP family has a wide range of modular elements that provide endless possibilities for assembling to create interesting spatial configurations, catering to creative and social interaction.

Play or sit on, besides, and in between. Maintenance-free material, available in 10 colours.

Rotationally moulded from Polyethylene, this range can be left outdoors all year round as it is impervious to water, wood boring insects and frost. Additionally, our plastic furniture does not warp or twist over time like timber and is incredibly easy to clean between uses.

Loop Circle - A versatile design for schools and playgrounds, suitable for 4-6 people. It promotes informal gatherings, relaxation, or movement.
(Outside Dia : 1.8m x Inside Dia: 1m x H: 0.4m)

Circle with Backrest - Adding a Loop Cone to the center of a Loop Circle creates a backrest. The Cone can hold a plant or be topped with a table.
(Dia: 1.8m x H: 0.7m)

Loop Picnic - Combines a Loop Circle with 6 Hop Op 500 seats, creating small, informal seating groups.
(L: 2.4/2.5m x W: 2.15/2.24m x H: 0.7m)

Loop Arc - A sleek, elegant piece. Multiple modules offer diverse furnishing options for outdoor spaces in schools and campuses.
(L: 2.15m x W: 1.35m x H: 0.4m)

Loop Corner - A 90-degree module that defines green areas while serving as a bench.
(L: 1.4m x W: 1.4m x H: 0.4m)

Loop Line - The straight module in the LOOP series, perfect alone or with Arc or Corner for limitless design options.
(L: 2m x W: 0.4m x H: 0.4m)

Hop Op 500 - Clusters of these colorful pieces create playful environments, inviting sitting, resting, and jumping.
(Dia: 0.5m x H: 0.4m)

Loop Cone Planter - An XL conical planter that enhances green seating areas when combined with other Loop furniture.
(Dia Top: 1.13m x Dia Bottom: 0.81m)

Boia - A modern twist on the table-bench combo, combining function with a playful, sculptural design.
(L: 2.4m x W: 1.2m x H: 1.2m)

Available Colours

BLUE (VARIANT)

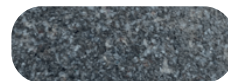

OLIVE GREEN (VARIANT)

WHITE (VARIANT)

SANDSTONE (VARIANT)

RECYCLED (VARIANT)

KEY FEATURES

- Rotation moulded polyethylene, 6-7 mm thick, dyed
- Moulded in one piece
- UV / weather resistant hard wearing
- Lifespan 30 years
- 100% recyclable up to 7 times. Carbon footprint: 230 kg
- TÜV approved as playground equipment acc. EN1176
- Textured surface which enhances contact friction
- Surface Mounted or fill with water/sand

**100% RECYCLED
PLASTIC
AVAILABLE FOR ALL
LOOP RANGE**

100% RECYCLED PLASTIC FURNITURE

Invest in reducing your carbon footprint with recycled outdoor furniture that doesn't cost the earth.

Our range of 100% recycled plastic furniture is made from plastic bottles, helping towards reducing global emissions.

Choosing items from our 100% recycled range means you are helping to reduce the amount of plastic that ends up in landfill whilst investing in quality products that last up to five times longer than timber.

SEATING & TABLES

This range of seating and tables is a perfect low maintenance, vandal resistant, hygienic & easy to clean external furniture solution. Ideal for social areas, external dining spaces and outdoor classrooms. Comes with a 10-year guarantee!

A-Frame Picnic Table

L: 1.5m x D: 1.2m x H: 0.8m x Seat H: 0.45m

2, 3 and 4 Person Premier Bench

L: 1.25/1.85/2.05m x D: 0.56m x H: 0.41m

Premier Table & Bench Set

L: 2.05m x 0.72m

KEY FEATURES

- Made from 100% recycled plastic
- Maintenance free
- UV Stable & Vandal resistant
- Hygienic & easy to clean
- Ready assembled
- Earth fixing kits available for installation onto grass

LITTER BINS

Keep your campus clean and tidy, as well as protecting the environment, with our 100% recycled range of weatherproof litter bins. All models in this range are available in black only.

Popular Litter Bin

Dia: 0.52m x H: 1.13m
(70 Litre)

Classic Litter Bin

Dia: 0.52m x H: 1.13m
(90 Litre)

Slimline Classic Litter Bin

Dia: 0.38m x H: 0.94m
(52 Litre)

Universal Litter Bin

Dia: 0.52m x H: 1.13m
(90 Litre)

KEY FEATURES

- Suitable for Indoor & Outdoor use
- Polyethylene Bodyshell
- Supplied with a Galvanised Steel or Plastic Liner
- Add the Tidy Man free of charge or request a plain bin

PLANTERS FOR OUTDOOR USE

Medium Recycled Planter

H: 0.42m x W: 0.55m x D: 0.55m
(Weight 55kg)

Large Recycled Planter

H: 0.58m x W: 0.55m x D: 0.55m
(Weight 81kg)

ECO-OCEAN/URBAN RANGE

A range of seating and litter bins that is made from plastic waste from the ocean and urban areas. The result is a unique multicoloured speckled finish that requires minimal maintenance, UV / weather resistant & hard wearing.

Designed to enhance the sustainability of cities by transitioning waste back into the urban environment they contribute to the circular economy.

ECO OCEAN RANGE

MAVERIK ECO OCEAN bench
L: 1.7m x W: 0.76m x H: 0.83m

IBIZA ECO OCEAN bin
L: 0.6m x W: 0.4m x H: 1.08m
(Capacity: 80L)

KEY FEATURES

- 100% recycled / recyclable
- Made of plastic waste
- Low maintenance

ECO URBAN RANGE

MAVERIK ECO URBAN bench
L: 1.7m x W: 0.76m x H: 0.83m

IBIZA ECO URBAN bin
L: 0.6m x W: 0.4m x H: 1.08m
(Capacity: 80L)

GREENGATE TIMBER RANGE

From ergonomic seating to spacious picnic tables, the range provides functional site furniture that helps create more accessible and enjoyable surroundings for your communal outside areas.

Ideal for schools & universities our Greengate furniture range is manufactured from 5mm mild steel and then hot dipped galvanised to BS EN ISO 1461:2009, and available in hardwood or softwood timber slats.

Greengate Bench
L: 1.8m x D: 0.41m x H: 0.45m

Greengate Bench
L: 1.8m x D: 0.55m x H: 0.76m

Greengate Table
L: 1.8m x D: 0.60m x H: 0.75m

Greengate Litter Bin
H: 0.92m x D: 0.38m x Capacity: 50L

KEY FEATURES

- Can be surface mounted or Root fixed
- Optional Fixtures - Backrests, Armrests, Anti-Skate studs
- Powder coating in any RAL colour for school branding
- Low Maintenance

CYCLE STORAGE

Leading the Way in Sustainability

At AMV Playgrounds, we understand that cycle storage does more than just provide a place to park bikes—it supports a healthier, greener, and more active school community.

It is well evidenced that when schools invest in secure, covered bike storage, cycling uptake increases significantly for both students and staff, which reduces congestion and pollution around your campus.

Our innovative cycle parking solutions offer long-term value for money, with sleek, modern designs that enhance the overall aesthetic of your outdoor spaces.

SHELTERS & COMPOUNDS

HERON SHELTER

The Heron Shelter is a reliable and efficient option to provide shelter for a variety of outdoor spaces. Its cantilevered design boasts powder-coated steel beams at the rear supporting a tilted flat roof that is clad with multiwall polycarbonate. In addition to cycle or motorbike storage, the Heron can be utilised as a covered walkway system or social space shelter with benches fitted underneath.

CUSTOMISABLE OPTIONS

- Extendable lengthways
- Powder coating in wide range RAL colours

FEATURES

- Open free flowing space beneath
- Flexible design
- Low maintenance

EASTBROOK SHELTER

The Eastbrook is a versatile cycle shelter model, available in two standard size, and can be extended lengthways with additional units.

The steel frame is hot dip galvanised with optional powder coating. Roof is clad in 5mm PET clear glazing which is impact resistant.

CUSTOMISABLE OPTIONS

- Junior size: 2.6m wide roof with 4m long footprint
- Senior size: 3.2m wide roof with 5m long footprint
- Extendable lengthways
- Powder coating in wide range RAL colours

FEATURES

- Sleek modern design
- Open sided, ensuring visibility all round
- Unobtrusive footprint with just two points of contact
- Water run-off to the rear
- Low maintenance

Standard sizes starting from - L: 4.1m x D: 2.6m x H: 2.3m

HASTINGS SHELTER

Standard sizes starting from - L: 4.1m x D: 5.4m x H: 2.1m

STOKE COMPOUND

The Stoke Compound offers enhanced security for large capacity storage, all within a modern, neat design that is extremely popular with high schools and college campuses. This modular shelter system can be expanded without limit, offering dedicated cycle storage for 200+ student if required.

CUSTOMISABLE OPTIONS

- Powder coating in range RAL colours
- Bespoke sizes available on request
- Cycle / Scooter / Motorcycle parking

FEATURES INCLUDE:

- Water run-off to sides
- UV Stable Clear PET Sheeting
- Modular design, can be extended to suit requirements

CYCLE RACKS

CYCLEPOD

Cyclepod is our flagship cycle storage product. The unique the eye-catching design offers 2 separate locking points per cycle and secures 8 bikes in a two meter diameter. The Cyclepod is an ideal bike storage solution for semi secure locations where space and aesthetics are particularly important.

CUSTOMISABLE OPTIONS

- Colours: Black (Recyclable), Red, Yellow, Royal Blue, Light Blue, Dark Green, Light Green, Grey & Stone effect
- Canopy addition available to protect bikes from rain.

FEATURES

- BREEAM compliant
- 3m Diameter space required for installation
- Manufactured from 100% recyclable & recycled materials
- Space saving

SPACEPOD

Spacepod is a highly configurable semi vertical bike storage design that can be used on its own or together with the Cyclepod to go around corners and to form a "stretched Cyclepod Island". An ideal solution for when only wall space is available, but looks are equally important.

CUSTOMISABLE OPTIONS

- Extendable units for any number of bikes
- Colours: Black (Recyclable), Red, Yellow, Royal Blue, Light Blue, Dark Green, Light Green, Grey & Stone effect
- Canopy addition available to protect bikes from rain

FEATURES

- BREEAM compliant
- 3m Diameter space required for installation
- Manufactured from 100% recyclable & recycled materials
- Space saving

Dimensions - L: 0.75m x H: 0.80m x Dia: 0.048m

SHEFFIELD CYCLE STAND

The classic enduring design...Simple, strong, & stylish. Perfect for secure bike parking anywhere. Tough, low-maintenance, and flexible.

FEATURES / OPTIONS

- Root fixed or surface mounted
- Stainless Steel

SHEFFIELD TOAST RACK

The Sheffield Toast Rack is the perfect item if you need a quick & easy solution to store multiple bikes. Each hoop will hold 2 bikes, and our most popular model is the 5 Hoop version which holds 10 bikes.

FEATURES / OPTIONS

- 2, 3, 4 & 5 hoop versions
- Additional powder coated finish in a variety of colours
- Stainless Steel also available

Dimensions - L: 0.8-3.0m x D: 0.75m x H: 0.80m

Dimensions - L: 0.30m x D: 1.05m x H: 1.87m

SEMI VERTICAL CYCLE STAND

Very popular in areas where space is at a premium such. Bicycles are stored semi vertically with the front and rear wheel supported in a custom designed trough. Suitable for storing everything from Road Bikes to Mountain Bikes with extra wide tyres.

FEATURES / OPTIONS

- Modular design to hold as many bicycles as you need
- Fixing: Surface Mounted Fixing
- Galvanised finish for rust protection

EASYLIFT PREMIUM CYCLE RACK

Easylift Premium is a highly convenient gas-assisted two level bicycle parking system. The lifting system ensures that a bicycle can be parked on the top level effortlessly. The end of the light-weight aluminium upper track rests on the ground so that the bicycle can simply be wheeled onto it and hardly has to be lifted at all.

FEATURES / OPTIONS

- Can be configured to meet any number of spaces
- Gas assisted - Easy to use
- Secure at the front and/or rear of the locking points

Dimensions - L: 1.02m x D: 1.9m x H: 1.7m

Dimensions - L: 4.1m x W: 3.8m x H: 3.1m

XL STOKE SHELTER

The XL Stoke Shelter is based on the same 4m long bay as our standard Stoke Shelter. However, height and depth are expanded to accommodate Double Decker stands. This extension in headroom increases the number of bikes stored from 10 to 18.

FEATURES / OPTIONS

- Also suitable for semi-vertical bike stands
- Can be expanded in 4m long bays
- Available in a range of colours

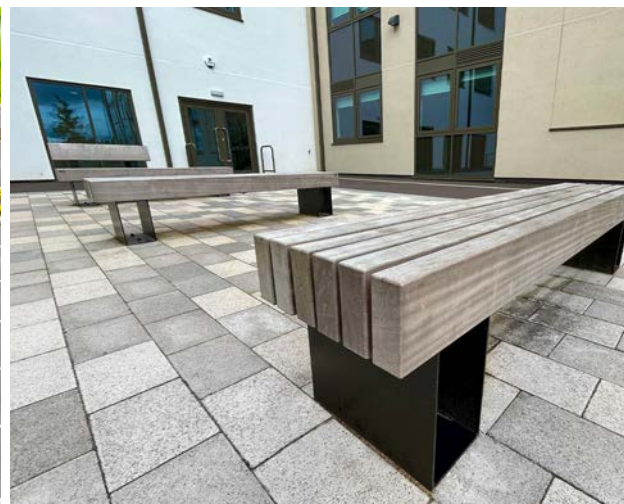

CASE STUDY

Project Name: Kenilworth School & Sixth Form
Location: Warwickshire

Products Used: Eastbrook Senior Shelter, Harrogate Cycle Stands, Door Barriers, Column Protectors, Stainless Steel Bollards, Hyde Benches/Seats, timber seating and picnic sets,

Bailey Street Furniture Group played a key role in equipping the school's external spaces with furniture and cycle parking solutions, including timber picnic seats, various benches, cycle shelters, and safety features like door barriers and bollards. This integration of thoughtful design and functional amenities has been well-received by the community, reflecting the school's commitment to a supportive and innovative educational environment.

Kenilworth School & Sixth Form, the largest school construction project in England as of September 2023, serves 2,200 students in Warwickshire, expanding from its previous capacity of 1,700. The project, initiated in 2008, aimed to address funding cuts and logistical issues of maintaining outdated buildings. The new facility, designed by Arup, features five distinct wings connected by a central spine and includes mini plant gardens for environmental sustainability and mental well-being.

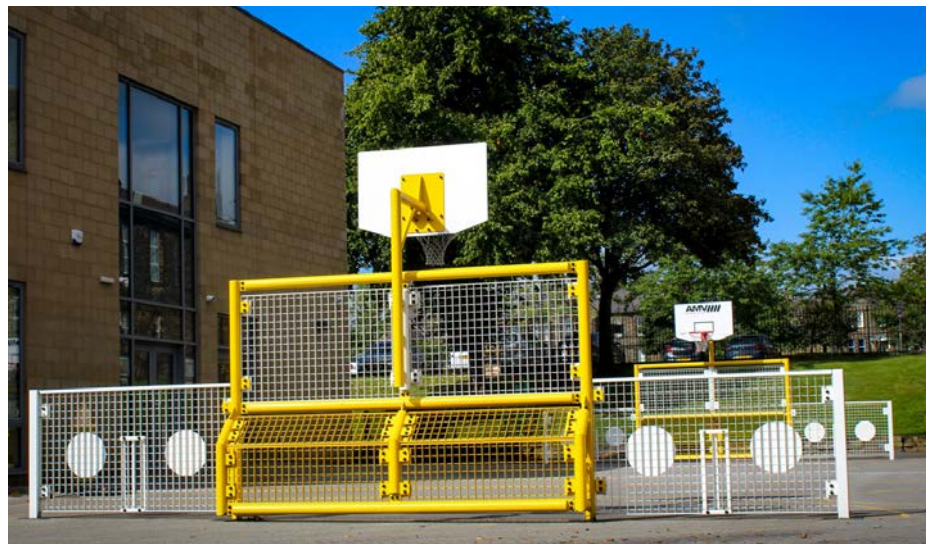

CASE STUDY

Project Name: Halifax Academy
Location: West Yorkshire

Products Used: Mono-Pitch Steel Canopy / Multi-Sport Goal units / Steel Tennis Nets

The Halifax Academy in West Yorkshire, is an "all-through" school with pupil ages ranging from 4 to 16 years old. AMV Playground Solutions provided a new sheltered outdoor learning space along with a full suite of playground sports equipment.

Having diverse age groups sharing the playground and outdoor spaces, a need was identified to divide the schools' grounds into a dedicated zones to help with better organisation across the pupil groups, whilst also designing a dedicated, safe area for sports & active play.
